

2nd Look

# Targeted Problem

Implementing  
**Artificial  
Intelligence** to  
improve healthcare  
**systems** for medical  
professionals

# Our Product

- **Takes** input **data measurements** of tumor
- Predictive Machine Learning Algorithm
- Outputs whether cancer is ***benign*** or ***malignant***

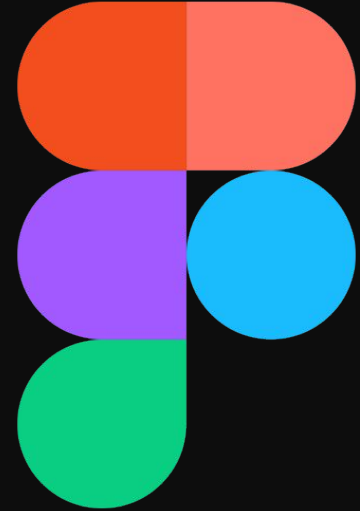

# Tools

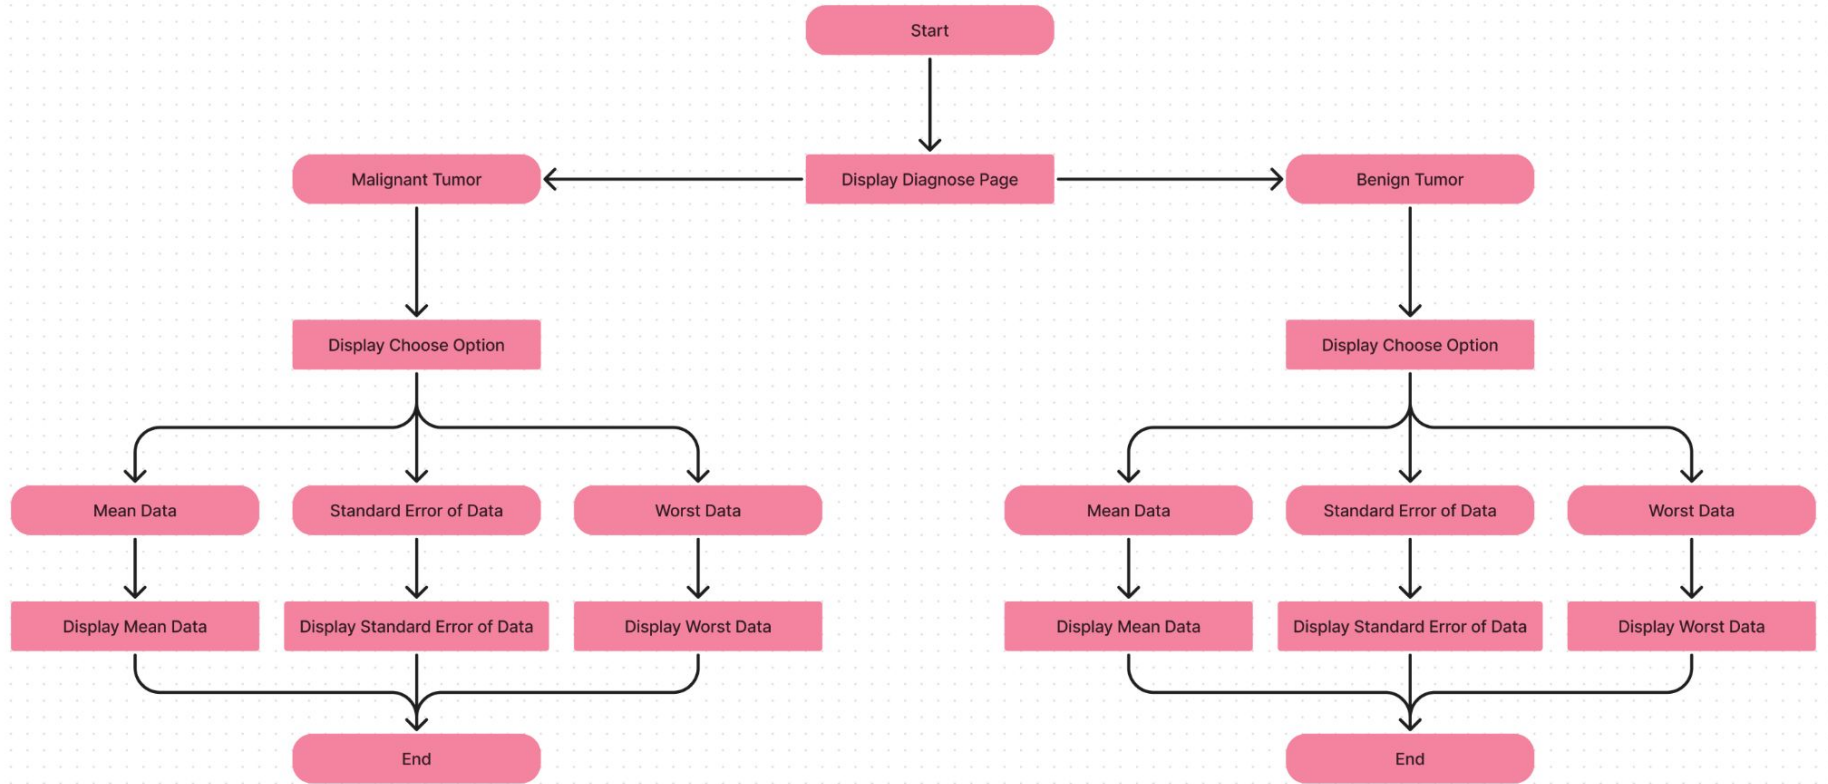

Python

Google Colab

Figma

# Future Outcomes

---

**“AI-powered insights,  
human-driven care”**
